

Warning: This Shocking Secret Will Show You How To Triple Your Income and Take Back Control Of Your Life... Without Working Your Ass Off!

What I'm about to share with you will change the way you work forever...

By the time you've finished reading this, you'll learn how to exponentially increase your revenue.

- You'll cut down the time you're working
- You'll gain more freedom
- You'll have more flexibility
- You'll be less stressed
- You'll get time back to do the things you enjoy doing

But unlike all the other BS 'time management' information out there, this is different.

I'm *not* going to show you how to save 1 hour a week by brushing your teeth in the shower. I'll show you **how to get an hour back to do what you love.**

I'm *not* going to help you get more out of your time. Instead, I'll show you **how to have more free time - without sacrificing other areas of your life.**

Why do I know this will dramatically improve your life?

Well, if you're anything like most entrepreneurs, your income is *less* than the average 9-5 worker. You read that right.

According to Forbes, **the average income for an entrepreneur is \$47,000 a year.**

That doesn't sound too bad until you learn the average household income in the U.S - **\$68,703 in 2019.**

Entrepreneurs - '*hard-working*', '*driven*', and '*ambitious*' - make less money a year than the average American! That's not quite the financial independence you signed up for...

This is a disease plaguing the entrepreneurs of the world. I see it *all the time* and have begun calling it **The Hamburger Hustle.**

Most entrepreneurs are *obsessed* with getting a great deal, maximizing their time, or getting a good 'flip' on an item. But that's part of this sickness.

It gets you by making you think what you're doing is right. That everything will be better if you just work harder. That you'll make more money if you manage your time better.

But if you want more money, you'd be better off flipping burgers!

There's no such thing as time management!

And here's the thing. Your situation is much worse than you initially thought.

Most entrepreneurs find themselves working *twice* the amount of the average worker - 80, 90, or even *100* hours a week. **For less money!**

See, the goal for most entrepreneurs is to **work less** and **live more**. Most entrepreneurs, though, are living *the opposite*. Working *overtime* for **mere scraps!**

There's a problem here - **The Hamburger Hustle**. One of the core symptoms of this illness is a focus on *productivity*, not profitability.

Correct me if I'm wrong, but **everyone has the same 24 hours a day**. Not 23, 25, or 27.

24 hours a day.

In those 24 hours, some people have \$60,000 salaries. Some have \$600,000, and some have **\$6,000,000** salaries.

"These people must have a secret key to earn so much!"

"They're gods!"

"They must be hustling 24 hours a day and getting no sleep!"

Incorrect.

Yet, the average 'entrepreneur' like you doesn't fit into any of these categories. You earn *less per year* than a 9 to 5 worker!

How?

Profitability vs Productivity

There is a clear difference between you and the average unskilled worker - the type of work you do.

With an office or factory worker, their income isn't related to the quality or type of work they do. The work doesn't matter - they get paid regardless. So for them, the focus is *productivity* - getting the most out of their time.

Whereas for entrepreneurs like you, your focus *shouldn't be productivity!*

Why Productivity Sucks

As an entrepreneur, productivity *sucks*. If your focus is on productivity, then *you*, as a result, suck!

Who cares if you're getting tons of stuff done, when that stuff is on **non-money-making activities**? *That's* why you're broke!

It doesn't matter how *productive* you are when you focus on the wrong tasks! Your productivity **will not** make those tasks *profitable* - and therefore **will not make you money!**

You're focusing on *productivity* rather than *profitability*. I call this the **productivity paradox**.

No matter how hard you work, how stressed you are, how productive you are - **productivity does not equal profitability**.

Those people, earning 7-figures and upwards, are just like you and me. The only difference is how they *spend* those 24 hours. They don't focus on productivity.

Or, in other words:

You're using your time wrong.

You're throwing your time away!

Instead of focusing on *productivity*, you should be focusing on *profitability*.

This is why you'd be better off flipping burgers. It wouldn't matter how productive you are, or how many burgers you flip - you'd be getting paid the same amount. That's the problem every Hamburger Hustler faces.

But as an entrepreneur, things are much more complicated than that.

If you don't make a change now, you'll continue to work *much more* than is needed.

You'll be **wasting your time**, focusing on the wrong things.

You'll **burn out**. And not like most people think...

You'll be ***incinerated***.

This 'burnout' will put you off of entrepreneurship *forever*.

You'll *want* to get a mediocre, steady-state job, settling for *less*.

Your life will suffer.

Your dreams will die.

Your goals will falter.

And you'll eventually die knowing you could have done so much more with your life, if only you didn't burn out. That burnout will cost you your goals, your dreams, and your entire life.

This is the outcome - no, the *destiny* - of every Hamburger Hustler.

But, that doesn't have to happen!

You are the author of your own destiny. You don't *have* to burn out.

- Your life doesn't *have* to suffer
- Your dreams don't *have* to die
- Your goals don't *have* to falter.
- **You can avoid your burnout!**

You can escape the trap of The Hamburger Hustler.

And when you do...

- **You'll have more time** to pursue the life of your dreams
- **You'll have more money** to live however you like
- **You'll have the respect of those close to you.** Friends, family, colleagues - they'll all admire you.
- **You'll be able to do *whatever you want, whenever you want!***

All from just 15 minutes a day! And I'll show you exactly how to do it...

But first, let me tell you a story about myself.

I know this problem of The Hamburger Hustler all too well. You see, I was in a similar situation not too long ago. And if I chose to flip burgers, my life would be so different...

The Shift In Focus That Changed My Life

***PUT STORY HERE* - Or use a variation of the following:**

What were you doing back in 2003?

I was working through the death of my Mom and the loss of all my income streams.

It truly was the lowest point of my life. *Rough* is an understatement.

I remember earning just \$138 that December. I was living in the basement of a couple's home in Vegas, sleeping on a leaky air mattress. I was working off an old, cheap laptop I got for free, on a small desk made for eating. I was *struggling*.

It was a horrible situation. **I needed money ASAP.**

But, this was around the time when my life changed *forever*.

I was blessed to have a mentor, Jeff Paul, who shared with me three words that transformed everything...

The Three Magic Words

I remember reaching out to Jeff with a 2-page email. I poured my heart out, asking for help. Any help I could get would be appreciated. My situation was *dire*.

About a week later, he replied. It just so happened that he'd be visiting Vegas that month, and wanted to meet and get food.

On the way to the restaurant, I was explaining my situation. I was working SO hard, usually 14 hour days, and making no money.

What happened next transformed my life.

He said to me "If I tell you what to do, that will be practically guaranteed to make you money, will you do it? No questions asked."

I opened my mouth-

"No. *No questions asked*. Do exactly what I tell you to do."

So I said, “If you told me to jump out of this van, moving at 60 MPH, and that would *guarantee* that I’d make money, I’d do it.”

“Alright. Here’s what you need to do:

Sell more sh*t.”

That’s it.

“Sell more shit, and you’ll make more money.”

It’s NOT about working harder...

After having our meal, on the way back, Jeff shared more detail.

He told me the importance of spending time on the *right* activities. Activities that make you money.

Focus on the things that make you money, not the things that don’t.

This made me realize - it’s not about working harder. It’s about working *smarter*.

And by smarter, I mean working on the things that *matter*. The things that *make you money*.

So I took his advice. After all, this was a guy making millions *online*.

I went home and got to work - *smarter*, not harder. Within 8 days, I had made **\$10,400**.

From there, I grew the business to **\$100,000 a week**.

And because of this, I can now make as much money as I want, whenever I want. Money isn’t a problem for me. So, I want to help *you* out.

Welcome to the Anti-Hustle Society!

Think about this for a minute.

What would life be like for you if you earned *significantly more* by spending *significantly less* time working?

Please, consider it. What *would* your life look like?

Here a few things that I *know* would be true:

- **You'll experience true freedom**
- **You'll be happier** since you can do whatever you like.
- **You'll be less stressed** as your money problems fade away.
- **The people around you would have better lives.** With no financial worries, you can treat your loved ones.
- **You'll have more time** to spend however you like. You could even use that time to make more money!
- **You'll take back control of your life.** You are the master of your own destiny!
- **You'll have the power** to live your life how *you* want to live it.

None of that is a joke. I'm **100% serious** when I say *all* of that **can be yours**.

And I'm about to give you the key to it all. Follow this system, and you're **guaranteed** to triple your income in three months, get more time back, and live the life you desire.

Here's how.

Introducing Timebank - The System That Will *Genuinely* Change Your Life

The premise of timebank is simple.

Timebank takes the '*employeeship*' out of *entrepreneurship*.

Timebank gives an entrepreneur - you - their life back.

Here's what Timebank does. Timebank helps you to refocus on the activities that are revenue-generating. Not only that, but it makes sure they're *high-yield* generating activities - so that you can make the income you want to make.

Timebank will show you:

- How to triple your revenue without working your ass off
- How to live the life of your dreams without sacrificing your time
- How to commit to the activities that will bring you the amount of money you desire

Time Management Is A Myth

Timebank is *not* about time management. As you learned earlier, time management relates to productivity, which is not what you want to focus on. Everyone has the same 24 hours a day - what you do with those hours is what determines your income.

Time management is a myth because no matter what you do in those 24 hours, time *itself* doesn't change. Time will go on, regardless of how 'productive' you were or what tasks you completed.

Thus, there's no such thing as *time* management. You can only **manage yourself according to time**.

Timebank will help you **manage yourself according to income**.

And that's what Timebank is all about. It's about self-management, life analytics, and identifying where you spend those 24 hours.

With the knowledge you gain and the skills you'll develop using Timebank, you'll radically change your life.

- You'll learn **how to triple your income in three months or less**
- You'll **regain control of your time and your life in 15 minutes**
- You'll discover which activities are of the most value
- You'll have a new perspective on every task, allowing you to **focus on those things that are of the most value**
- You'll learn how to make **more money in less time** so you can enjoy the things that matter most

If you're working more than a 9-5 worker and earning less than the average income, then **Timebank is for you**.

Make More Money Next Week Than You Did Last Month

In essence, Timebank boils down to one thing. This thing is so simple it blows the minds of entrepreneurs across the world. It sparks epiphanies and can transform businesses.

That one thing is **the only way to make money in business**.

And that one thing is **getting an offer in front of people**.

Without an offer, **you can't make money**, because without an offer, **you can't get paid**.

Doing the thing doesn't make you money. *Getting the money* makes you the money.

Timebank helps you understand and leverage the things that you can control:

You can't control how many sales you make - you *can* control how many sales presentations you do.

You can't control how many leads you generate - you *can* control how many doors you knock on or the number of emails you send.

You can't say "I'm going to sell 5 things today". You *can* say "I have a typical closing ratio of 20%, so if I want to close 5 sales today, I need to talk to 20 people."

That's what Timebank helps you to realize. Getting an offer in front of people is the *only* way you make money, and is a **real thing you have control of**.

Timebank's purpose, then, is to help you focus on getting offers in front of people - in a way that supports your business, your lifestyle, and makes you the income you want.

And it works. But don't just take my word for it. Here are some of the *many* people whose lives have been changed by Timebank:

Back then, I was charging \$12,000 for Timebank. Every single client was ecstatic about making the decision once they saw the results it had on their lives. Here's what Steven Scriber said about it:

"Initially, I thought this was expensive, until I **made my money back in less than 3 weeks.**"

At \$12,000, Timebank is an *absolute bargain*.

- **You'll take back control of your life.**

- You'll learn **how to triple your income in three months or less**
- You'll **regain control of your time and your life in 15 minutes**
- You'll discover which activities are of the most value
- You'll have a new perspective on every task, allowing you to **focus on those things that are of the most value**
- You'll learn how to make **more money in less time** so you can enjoy the things that matter most
